### **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this section can be found in the prior office action.
2. The prior office actions are incorporated herein by reference. In particular, the observations with respect to claim language, and response to previously presented arguments.
3. Claims 11-15 have been cancelled.
4. Claims 1, 2, 4, 7, 8, 16 have been amended.
5. New claim 18 has been added.
6. Claims 1-10 and 16-18 are pending.

### ***Response to Arguments***

7. Applicant's arguments filed 07/05/2006 have been fully considered but they are not persuasive.
  - Applicant's arguments in the Interview conducted on 09/06/2006 (see enclosed Interview summary) would have been persuasive if claims would have been amended to reflect such arguments since the limitations of the inventions relied by applicant in the interview are not recited in the claim language: In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

8. Examiner has maintains the rejection since no further communication from applicant was received by 09/25/2006 in order to resolve the differences over the claim language in order to expedite the examination process.

***Claim Rejections - 35 USC § 102***

9. **Claims 1-10, 16-18** are rejected under 35 U.S.C. 102(e) as being anticipated by McNabb et al (6,289,462 B1).

Examiner has pointed out particular references contained in the prior arts of record in the body of this action for the convenience of the applicant. Although the specified citations are representative of the teachings in the art and are applied to the specific limitations within the individual claim, other passages and figures may apply as well. Applicant should consider the entire prior art as applicable as to the limitations of the claims. It is respectfully requested from the applicant, in preparing the response, to consider fully the entire references as potentially teaching all or part of the claimed invention, as well as the context of the passage as taught by the prior arts or disclosed by the examiner.

**Claim 18** has been grouped with the previous independent claims.

**As per claims 1-10, 16-18** please see the previous final rejection rendered on 12/30/2005 in the light of the "response to arguments" above taking into consideration the limitation "from the simulated execution"; receiving a second message including user-requested actions and inputs" which being disclosed by McNabb fig.1 and 4-12 and associated texts.
